EDUCATION

Towson University

B.S. in Computer Science

Baltimore, MD

Expected Graduation, May 2027

- **Concentrations:** Software Engineering Track
- **GPA:** 3.56/4.00, *Dean's List*
- **Related Coursework:** Intro to Computer Science (COSC 236), Calculus I, Calculus II, Discrete Math, CSIT101 (MS Office)

EXPERIENCE

Headstarter AI

Baltimore, MD

Software Engineer Fellow

July 2024 – Sept 2024

- Gained mid-level exposure to frontend, backend, cloud, and machine learning stacks through 3-4 projects, applying minimal theory in DSA, systems, and OOP.
- Worked in a core team on resume reviews, group projects, startup ideas, and hackathons, fostering a supportive environment for growth and feedback.
- Presented projects to large audiences, connected with 50+ software engineers, and developed strong communication skills to build rapport with peers and stakeholders.

PROJECTS

[Pantry Tracker](#)

Baltimore, MD

Solo

Aug 2024 – Sept 2024

- Created a web app to track pantry items, manage inventory, and reduce food waste using Next.js and React.
- Implemented secure user-specific data storage with firebase, ensuring personalized user experiences.
- Ensured seamless deployment and continuous integration using Vercel for real-time updates and scalability.

[Recipe AI](#)

Baltimore, MD

Team Member

Aug 2024 – Sept 2024

- Collaborated on an AI-powered recipe assistant using Next.js, React, and OpenAI API for personalized user experiences.
- Developed both frontend and backend in JavaScript using Visual Studio Code to streamline the development process.
- Led team coordination in brainstorming and coding sprints, delivering a modern and polished final product.

[CleverCards AI](#)

Baltimore, MD

Team Lead

Aug 2024 – Sept 2024

- Led the design and development of a responsive web app for AI-powered flashcards, featuring a sleek dark-themed UI.
- Integrated Stripe API for secure payments, allowing seamless subscription management with full session handling.
- Applied user authentication and data management with Clerk and Firebase, securing user-generated flashcard collections.

[Portfolio Page](#)

Baltimore, MD

Solo

July 2024 – Aug 2024

- Employed HTML/CSS to create a sleek personal portfolio website.
- Incorporated interactive features such as contact forms and social media integration to communicate with visitors.
- Customized website layout and typography with CSS to reflect personal branding and aesthetic preferences.

ACTIVITIES AND LEADERSHIP

Software Engineering Club

Baltimore, MD

Member

Sept 2024 – Current

NSBE(National Society of Black Engineers)

Baltimore, MD

Member

Sept 2024 – Current

Models Of Distinction

Baltimore, MD

Runway Model

Sept 2023 – Current

- Exhibited a commanding runway presence, seamlessly translating designer visions into captivating performances.
- Developed creative runway concepts to boost brand visibility and engage audiences effectively.
- Led runway shows, managed teams, and ensured seamless event execution, showcasing strong leadership.
